

Important information concerning accommodation at USB Dormitories for 2nd year and higher students in AY 2024/2025

Please read carefully, the following text contains all the necessary information!

1. Students entering 2nd and higher years of their studies who are interested in applying for dormitory accommodation should submit their application electronically at <https://koleje.jcu.cz> between 22 April and 19 May 2024.

The login details are the same as for STAG. In case you have passed the state final exams and are waiting for admission to the consecutive studies (you are not currently a student at USB), use the link 'Login others to ISKAM'. LOGIN: student's identification number (without the slash symbol), password: initials in small letters (it is always only 2 letters, e.g. Jan Novák-jn). If you cannot log in, use the link to send a new password.

A confirmation email will be sent to students who correctly submit the accommodation request.

2. D&R USB will decide on the accommodation of applicants under Accommodation Regulations No R544 by 30 May 2024. An email will be sent to applicants with approved applications at that time with further instructions.
3. Students according to point 1, whose application has been approved and who are still interested in dormitory accommodation, should confirm their accommodation electronically after logging into ISKAM by selecting a specific dormitory and a specific bed between 31 May and 16 June 2024.

In the period 31 May to 4 June 2024, students who wish to book the same bed they used until 30 April 2024 have priority in the selection of beds.

From 5 June to 16 June 2024, the choice of beds is unlimited within the available capacity.

If a student does not reserve the bed by 16 June 2024, the entitlement to accommodation expires.

The Dormitory Head may cancel a student's accommodation reservation if the student has violated the D&R USB Dormitory Regulations in previous years.

4. Students whose application is approved and who have reserved a bed will pay the reservation deposit of CZK 3 000 by 23 June 2024. If the student is staying at the dormitory or has kept the deposit from the previous AY in his/her ISKAM account, he/she is required to check whether a sufficient amount is available to cover the deposit of CZK 3 000. This reservation deposit will be converted to an accommodation deposit on the day of arrival.
